Conspiracies & Extremism

Compared BC Health Care to North Korea

- Western Standard, Cory Morgan Show, 2024, Video link: https://drive.google.com/file/d/1wWpeGvPIQ4BCvoXjFc5UZ-ArGsS1AqUR/view?usp=drive_link
- "I'm told that there's only one jurisdiction that even comes close to following what we do and that's North Korea - and it's not exactly a stellar model, from my perspective, of success in health care," said Mr. Rustad, who added that his government would immediately fire Provincial Health Officer Bonnie Henry over her support for COVID-19 vaccine mandates. - Globe & Mail, June 1, 2024

Claims there is a conspiracy to make everyone eat bugs, limit freedom of movement:

- "A new plant was built in Ontario... this plant produces 40,000 tonnes of bug protein for human and animal consumption, and there is a second plant now being built. This is what they think is the solution... We should not be expecting our kids to eat bugs."
- "Limiting our ability to move around in the name of climate change just makes us more vulnerable to government control."

“We should not be trying to fight climate change”

- “We should not be trying to fight climate change,” John Rustad said during a one-hour Q&A at the Penticton Seniors Drop-In Centre. “I’m sorry, but we are 0.14% of emissions.” - [Penticton Herald, May 14, 2024](#)

Doubts climate science of CO2 Emissions

- “The science behind the CO2 theory is not ironclad. There are much better policies we could be looking at that would achieve results in terms of helping improve our environment without having to punish people.” - [Western Standard, 13 Sep 2022](#)

Told Far-Right politician Laura-Lynn Tyler Thompson that the “climate narrative” is part of a conspiracy for population control

- “For some reason, this narrative about climate... and I can only put it to the fact that somehow they think we need to reduce the world population... It’s anti-Civilization.” - *Interview with John Rustad, [Laura-Lynn Tyler Thompson, Rumble.com](#)*

Defended the carbon tax in 2008 (on file)

- In an article titled “Rustad Defends Carbon Tax,” *Lakes District News*, 2008, Rustad said it worked because high oil prices reduced the sales of trucks and muscle cars.
- *Rustad*: “The sales of muscle cars in the 1970s went down considerably after the OPEC oil embargo, which drove the price of oil up. And today, truck sales are down considerably, in part, due to the higher price of oil, and the price of gas at the pumps. Instead, people started driving SUVs and Hummers, which are more efficient than muscle cars, and use less fuel. It's the same with the carbon tax.”

BC's new budget is nuts: +100 billion in debt. Free illicit drugs & contraception but nothing for life saving medicine like insulin. No new victim support, NDP wants to stop putting criminals in jail & expand services for them. Higher carbon tax. Lots more big government. #bcpoli

kristinaloewenrealestate 🏡 My first home vs my third home 🌸
Attention First Time Home Buyers!!

Food for thought...

When @andrewloewenrealestate and I went shopping for our very first home, we already had two little kiddos and a very meager budget. We received no money from any family member but had to have Andrew's dad on title to qualify.

I remember realizing that had we been ready a year earlier our money would have gone a lot farther. The market had just jumped up 100k. This was significant and nearly a doubling of housing prices as I recall.

As a result, our dream of owning a single family home quickly turned to realization that we could only afford a half duplex or a townhouse AND on the outskirts of town.

So we narrowed it down, picked one, fixed up the dump!! Legit. Made a huge profit 4 years later and purchased something that aligned more with our dreams.

Even the second house, as much as we loved it, didn't

So we narrowed it down, picked one, fixed up the dump!! Legit. Made a huge profit 4 years later and purchased something that aligned more with our dreams. Even the second house, as much as we loved it, didn't accommodate our now 4 children and LOVE of hospitality. So...we moved again to our now home. 🌞 The dream home with all the bedrooms and all the sunshine!! 😊 We worked very hard for this. We have created multiple streams of income through home ownership. My point is this...
1. Be kind to yourself. You don't always get everything you want the first time you try.
2. It's possible if you believe it's possible. Poor dad says I can't afford it. Rich dad says how can I afford it? There's ALWAYS a way if there's a will.
3. You have to jump in at some point. Once you're in the stream of home ownership, price is relative. It's no longer speeding past you, you're flowing with it.

you, you're flowing with it.

PS - that picture is legit our first home. This is the picture our realtor used to sell it in 2008. The other picture is our current home from the pamphlet the listing realtor created to sell it in 2014 when we purchased.

kristinaloewenrealestate JUST LISTED!!

Investment Property!! Or first family home! Welcome to 560 Rutland Road. A beautifully painted fireplace graces both the expansive master bedroom and the living room. You'll find a cozy kitchen nook off the dining room. Upstairs hallway takes you to two more bedrooms, bathroom and laundry. In the downstairs suite, you'll find another kitchen, laundry room and two more bedrooms. Everything is well laid out and very live-able. Outside boasts multiple storage spaces, a shed and a huge covered upper deck. The back yard is huge with room for a pool and more outdoor living or playing space. The front yard is xeriscaped and needs minimal maintenance and water. This home is ideally located for the busy working family. It is situated on a bus route, close to shopping, schools, and the Mission Greenway. If you are looking for an investment property, these are the tenants to keep! Tenants have made several improvements to the property in a short time and have been lovely to deal with.

Disappointed to see John Rustad's candidates from Langley continuing to support tolls on the Port Mann. Daily users have saved more than \$10,000 since we scrapped tolls. Rustad would cost people so much more.

And yes, we're expanding hwy 1 - we just completed to 216. 🙌

Amelia Boulton

August 3 at 3:44 PM · 🌐

⋮

I am making this statement in my capacity as an MLA candidate. It is with heavy heart that I address the recent news that James Miller has been accused of a grievous crime.

James will not be involved with my campaign or candidacy in any fashion.

More importantly, my thoughts and deepest sympathies are with any victims of any crime and I fully support any accuser's right to bring allegations forward and have their day in court.

When we found out last year he had been tried and acquitted I supported him on the basis that he was acquitted of those allegations and have known James to be nothing other than a pillar of the community.

These new allegations and charges are a different situation.

Like many of our City's residents, the news of these charges has left me deeply shocked and saddened. We put a high level of trust in our elected officials and it is disturbing when such serious allegations are made.

As a lawyer myself I believe in our justice system and believe these allegations will be handled with the utmost diligence and integrity.

The legal process must run its course and justice must be served. I will not pre judge the outcome which is in the hands of the court.

It wouldn't be appropriate for any further statements to be made given that this matter is before the courts.

I have young children 3 and 5. I've put my son in private school due to the indoctrination going on in schools. I have nothing against the LGBTQ community. I just feel kids shouldn't be exposed to sexual things and be able to change their sex through hormones and surgeries. I'm a firm believer in a traditional family household. That doesn't mean I'm against other things. Certain things should be left for the public to decide within their family not to be imposed on by the government.

BCNDP uses wedge issues to create a problem where there isn't. While David Eby imports American style political games.

I am committed to helping women in crisis and easing adoption. Also helping families to have children. Let's make BC the best place to have kids and raise a family.

BCNDP has killed that dream.

Let's restore it by making life more affordable so British Columbians can afford to have kids.

🔨 Carbon Tax

(Parents who have kids in sports know how much this will help them save)

🏥 Serious healthcare reform

(People want to know there will be adequate healthcare if they were to have kids)

⚖️ End the revolving door justice system

(Parents want safe communities for kids)

🚫 End Safe Supply

(People don't want to bring kids into a world where hard drugs like heroin and meth are considered like having a glass of wine.)

This video shows a very soft side to feminism, body empowerment and awareness, along with a respect for natural rhythms and the way our bodies are designed to work. I used to think feminist meant man hating and tough. I didn't describe myself that way. I now undersrand true feminism just means embracing and accepting that which makes us feminine. All of it. And we can still love men and our bodies ❤️👉👉👉

This is a very alarming trend affecting our food security globally and will have ripple effects here. Its almost like leaders want us to be eating grasshoppers. I WILL STICK WITH BEEF OFF OF MY FARM, stay vigilant that this is happening.

"Farmers continue to protest in huge numbers across Europe against excessive climate policies and regulations, which threaten their livelihoods. Farmers descended on Brussels today to send a message to EU leaders who were meeting in the Belgian capital for a leaders' summit.

What began with Dutch farmers last year and with German farmers last month has now taken over the continent as farmers in Poland, Lithuania, Italy, Spain, Scotland and Greece have also joined in to voice their opposition to the globalist climate agenda that specifically targets farmers.

These policies, which have brought so much hardship to European farmers, appear to be the envy of the Canadian government. As True North exclusive reporting uncovered in 2022, Canada sought to replicate the EU's climate policies on Canadian farmers."

Kealy Farms: Government Plan to Eat Bugs & Control the Weather

August 3, 2023 (Facebook)

We do question if this is all planned.

Killing off the small farms.

Controlling where you get your food...or if you get food.

They're going after vitamins and supplements right now so we won't have access to them.

Can't see the news online now...

Control the food and you control the people.

Will you eat bugs because there's nothing else?

[h.t.t.p.s://g.l.o.b.a.lnews.\(ca\)/news/2061255/ontario-cricket-farm-hopes-bugs-are-the-future-chefs-adding-insect-to-the-menu/](https://g.l.o.b.a.lnews.(ca)/news/2061255/ontario-cricket-farm-hopes-bugs-are-the-future-chefs-adding-insect-to-the-menu/)

And we know that they cloud seed and spray things in the air.

What are they doing it for?

Where's the information about it and data to support continuing to do it?

What are the unintentional(or intentional) harms from messing with the weather??

Hmm...unpredictable weather, weather extremes maybe??? Drought, Fires???

China is doing weather modification in an area larger than India soon, if not already.

[h.t.t.p.s://www.t.h.e.guardian.\(com\)/commentisfree/2020/dec/15/china-scaling-up-weather-modification-programme-we-should-be-worried](https://www.theguardian.com/commentisfree/2020/dec/15/china-scaling-up-weather-modification-programme-we-should-be-worried)

Canada has been 'cloud seeding' to keep hailstorms from pummeling the area beside the mountains from Calgary up for a long time already.

Some of you are aware of the hay shortages and even pastures being short for grazing this year. Hay crops are down a lot... This will affect EVERYONE in the not too distant future. Farm and consumer.

The drought is pretty bad this year AND last year was really dry from drought too. The usual winter melt wasn't running off like normal, places where we usually had puddles the water just soaked right in very quickly. Minimal runoff at all, it just barely managed to fill the dugouts, and didn't give the ground enough moisture base to be a normal growing year. We kept hoping for moisture early to help the grass grow but it never really happened..the grass withered, some died, even the weeds looked scorched.

We had one good rain in late may, was enough to germinate seeds we planted in one area...and then they all died because it didn't rain after that and was really hot.

So far, our pasture hasn't regrown much at all after being grazed, and the hay fields are really stunted.

We are grateful for the rain today.

It's too late to make a difference on the hay yields, but hopefully it will help the pastures.

Grateful for the big beautiful bales we made yesterday that were baled dry before the clouds let loose!

This might get me b a n n e d again 🙄🙄🙄.

*How many of you have heard about what's going on in Germany???

The farmers are fed up.

Sounds like the British farmers might block some stuff off soon too.

Wonder how long it'll take before it happens here?

There's an agenda to control the food.

If you control the food, you control the people.

Are you going to let someone control you?

Dictate what you can buy, what you do and where you can go?

The way things are headed right now, it's coming.

They're limiting what we can see so people don't get upset. They don't want us coordinating to rise up together.

They want us divided.

They want us distracted.

And it seems like they're succeeding for the most part.

There's a fight here too...it's the taxes, 'regulations' and red tape policies against farmers.

What we pay into carbon tax is choking us out.

It inflates all of our costs to produce food.

Farming in itself is a challenge.

You depend on the weather for things to grow (that's a whole 'nother post...😓)

You depend on the market for the prices you get.

And it's a LOT of thankless work. Period.

We farm because we love the land and animals.

I'd bet that the majority of people wouldn't do it as a business or job.

Heck, most of society today couldn't handle the workload that farmers do.

We don't get to take sickdays, there's no days off, the animals don't care if we need a break...they need to be looked after regardless of how we feel.

❄️ Snowed a bunch? Plow it or shovel it before you can do chores, or trudge through it. 🙄

🧊 Too cold? Layer up because you still have to do chores.

🤒 Sick? Suck it up buttercup. 🙄 Chores are still there.

Could you handle that?

Let's add g.o.v overreach into your farm.

Let's take the slim margin of profit(if any) you have and take it away.

Farmers are tired.

Some have already quit.

Some are ready to quit.

Some are barely hanging on.

Some are ready to fight.

Do you support farmers?

Or will you let the food be controlled by someone else...

Ever heard of the movie 'Soylent Green'?

I couldn't even watch it all.

The Rapture is Coming due to microchips, cashless payments, and gov't control:

Rachael Weber

August 24, 2021 · 🌐

Keep in mind. The anti christ comes before the rapture. I have been hearing about the second coming of Christ and the events unfolding since I was a kid. The "Mark of the Beast", microchips, no cash/just plastic, Marshall Law, Total Government dependency/control. When we are raising a family, working long hours, some two jobs, lots of things go unnoticed or just get ignored. No one can comprehend how bad it will be.....till it is. We have NEVER been told to stay home, quit work and rely on the Government. WE are seeing a lot of "firsts" since January. Can our minds and bodies handle what's coming?

Not without God - I wonder what doctor they will have on the news explaining the rapture and the disappearance of so many people? I won't be here for it but it's just a thought.

While the devil is preparing people for the Anti Christ, God is preparing people for the Rapture. I don't know when the rapture will take place but I know that I won't be left behind when that trumpet sounds!

I also believe right now that God is giving us a chance to repent. We need to get the Gospel message out!!! Until the Good Lord calls me away from this world to go home, I want to make it clear that I believe in Jesus Christ as the one and only True Lord and Savior. Despite the fact that I am human, and I fail a lot, I believe that Jesus is the Son of God.

I believe that He came as a baby, I believe that He died on the cross as a sacrifice for our sins and that He rose from the dead on the third day and He is in Heaven preparing a place for all those who believe and trust Him as their Savior. He loves us all dearly (far more than we deserve) and forgives our sins when we repent. His Word says John 3:16 "Whosoever believeth in Me , shall not perish but have ever lasting life."

Matthew 10:33 says, "But whosoever shall deny me before men, him will I also deny before my Father which art in heaven."

Just in case any of you missed out on the news this past Friday I'm filling you in! See pictures....

As someone who was actively involved in the fight against human trafficking in recent years this news both surprised me and did not surprise me all the same time. I'm not surprised on the one hand because human trafficking is the fastest growing criminal industry in the world making billions in profit annually. Modern day slavery is very real and it's happening in your own home town.

However, I was stunned to see Wayfair, Walmart and even Amazon implicated, but specifically to see what a large and blatant trafficking operation Wayfair was running right underneath our noses. This is the part that surprised me. They weren't even trying to do this more covertly.

For those who think this is a conspiracy theory I have news flash for you. Human trafficking for forced labor, sexual exploitation and organ harvesting is not a conspiracy theory. It's a fact. There approximately 30 million innocent men, women and children trafficked worldwide today. We have more slaves in the modern age then ever in history.

So let's stop pretending this only happens in other countries and that it doesn't concern us. It does and should concern is and it's happening right here in the United States of America.

I personally find it humorous that in less than 24 hours of the allegations Wayfair put out a statement saying this of course false, and Snopes (evidently some think Snopes is beacon of truth and as reliable as gospel) confirmed it also as false. So I suppose Wayfair and Snopes all performed a thorough internal investigation in less than 24 hours and found themselves not guilty. Yeah, okay... And they went on to say they have "temporarily" taken those items down to "rename" them (because I guess naming their products after missing children wasn't so clever on their part) and to update the product descriptions to adequately match the outrageous pricing.

So if the industrial cabinets named after missing children run 10k to 15k because they are "industrial grade", are the throw pillows that are also named after missing children and being sold for 10k also of "industrial grade"? Come on Wayfair! You're already a terrible liar. And why did your CEO step down? Things that make you go "Ummm..." 🤔

***(Update, it seems the CEO is still holding his post.)

And for those who think this was a "glitch"... Which part was the glitch? The ridiculously overpriced cabinets and pillows? Or that these products, most of which look identical, "coincidentally" have the same names as missing children? Maybe the real glitch was they didn't use a private and secure site for the sale of their trafficked victims. I don't know. 🤔 They certainly were being overconfident trafficking kids right there on their website. I just wonder what took so long for this "glitch" to be discovered???

This is NOT okay. Let's be the generation that ends human trafficking! 🙏

Wayfair, you will no longer get my business, and I have a feeling you will be loosing MANY more customers. I'm only sad for the honest and innocent employees who will likely lose the their jobs as a result of a huge loss in sales.

Cashless society conspiracy theory

Rachael Weber
July 13, 2020 · 🌐

...

Barbara Grinde
July 11, 2020 · 🌐

HERE IS WHAT NO CASH ACTUALLY MEANS:

A cashless society means no cash. Zero. It doesn't mean mostly cashless and you can still use a 'wee bit of cash here & there'. Cashless means fully digital, fully traceable, fully controlled. I think those who support a cashless society aren't fully aware of what they are asking for. A cashless society means:

- * If you are struggling with your mortgage on a particular month, you can't do an odd job to get you through.
- * Your child can't go & help the local farmer to earn a bit of summer cash.
- * No more cash slipped into the hands of a child as a good luck charm or from their grandparent when going on holidays.
- * No more money in birthday cards.
- * No more piggy banks for your child to collect pocket money & to learn about the value of earning.
- * No more cash for a rainy day fund or for that something special you have been putting \$20 a week away for.
- * No more mixers on the side because your wages barely cover the bills or put food on the table.
- * No more charity collections.
- * No more selling bits & pieces from your home that you no longer want/need for a bit of cash in return.
- * No more cash gifts from relatives or loved ones.

What a cashless society does guarantee:

- * Banks have full control of every single penny you own.
- * Every transaction you make is recorded.
- * All your movements & actions are traceable.
- * Access to your money can be blocked at the click of a button when/if banks need 'clarification' from you which will take about 3 weeks, a thousand questions answered & five thousand passwords.
- * You will have no choice but to declare & be taxed on every dollar in your possession.
- * The government WILL decide what you can & cannot purchase.
- * If your transactions are deemed in any way questionable, by those who create the questions, your money will be frozen, 'for your own good'.

Forget about cash being dirty. Stop being so easily led. Cash has been around for a very, very, very long time & it gives you control over how you trade with the world. It gives you independence. I heard a story where a man supposedly contracted Covid because of a \$20 note he had handled. There is the same chance of Covid being on a card as being on cash. If you cannot see how utterly ridiculous this assumption is then there is little hope.

If you are a customer, pay with cash. If you are a shop owner, remove those ridiculous signs that ask people to pay by card. Cash is a legal tender, it is our right to pay with cash. Banks are making it increasingly difficult to lodge cash & that has nothing to do with a virus, nor has this 'dirty money' trend.

Please open your eyes. Please stop believing everything you are being told. Almost every single topic in today's world is tainted with corruption & hidden agendas. Please stop telling me & others like me that we are what's wrong with the world when you hail the most corrupt members of society as your heroes. Politics & greed is what is wrong with the world; not those who are trying to alert you to the reality in which you are blindly floating along whilst being immobilised by irrational fear. Fear created to keep you doing & believing in exactly what you are complacently doing.

Pay with cash & please say no to a cashless society while you still have the choice.

Second Amendment Exists in Canada, People can “Petition the King”

CBC Interview, Mar 21/15 (Audio video on file)

- **Clare:** There's British Common law tradition which predates the second amendment at which says that people do have to keep and bear arms. And to petition the king if they choose. We have the same legal basis as the Americans do.

Canada turning into Germany 1933; Willing to commit insurrection.

- “There is a risk of being a criminal [not turning guns in when asked] but I mean, what's happening in this country right now is almost akin to statist oppression. **And I know where I fit if its 1933 and they're trying to break people and they're trying segregate them and divide them.** I know where I sit and I know where my decisions are in that case. And I think people need to look in the mirror and answer that question for themselves. And they need to know they are not alone there are lots of people that feel exactly as I do. They need to stop being afraid and they need to think for themselves and they need to be willing to take any action that's necessary to stand up for themselves in the face of statist tyranny. If this is where this country is going we have a huge problem. If there's no political solution to our problems that leads to a very scary path which people may very well be forced to tread.” - Sheldon Clare, The Gun Blog Video, Nov 28/21 (Video on File)

Gun violence not a problem in Canada

- “Well, and the other thing is firearms violence is not a major issue in Canada. If you look at violence. In Canada, it's by fists, it's by blunt objects. It is not by firearms, this is not a thing. It's never been a thing. And this really has never been about crime control. It's always been about civil disarmament and getting the guns that really is.” - Sheldon Clare, NFA Talk S2E05 Guest Rob Boutilier Feb 21.21 (Video on File)

Gun Control leads to Detention Camps

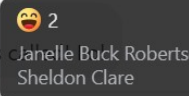

- “It's a short walk from this kind of authoritarian style to take people to two camps. The next thing you know, you're being put in put in detention camps. And because of the what you think What you believe or, or, or your your behavior and in the public realm does not fit with a particular authoritarian degree, all of a sudden, all of these things are converging. And none of this is

okay. None of this is okay. And that's supposed to be a free and just society.”

Racism or Racial Insensitivity

Dallas Brodie (Vancouver-Quilchena)

Says Chinatown Has Always had opium dens

- “And you know, there would always been opium dens down in in Chinatown. Okay. Because my, my mother's whose family goes way back in Vancouver two had grown up on in a very large home on Point Grey road. And they had had a Chinese cook named Chung, who was part of their family and he was apparently hilarious. And he would go down. And he would go to the the he would go down on Fridays, because you'd have the weekends off or whatever. Every bit, all of the the cooks would go down and they would play Mahjong. Yep. And they would smoke opium and have a really good time down there. And so there were opium dens there. So but opium, I believe was smoked.” - Dallas Brodie, The Social Ramp Podcast, Aug 16/20 (Audio on File)

First Nations need to come claim their people in DTES

- “And then the next thing I would say is that, you know, apparently the numbers show that a lot of the people in this community are there's a significant percentage that are First Nations people who, you know, their bands need to come and help their people... But don't just make Vancouver your dumping ground. Come and take your citizens. These are your people. These are they need your help and your support.” - Dallas Brodie, The Social Ramp Podcast, Oct 11/20 (Audio on File)

- Maddock wrote a letter to Black Press publication [Monday Magazine](#) calling Nazis "useful," and further said that "stating that society should not

"tolerate" [Nazis] is hypocritical, especially from anyone who claims to be an advocate of "tolerance."

Nazis useful

Re: "Nazi skinheads crawling out of shadows," July 26 - 1

I must say that I was somewhat perplexed by Simon Nattrass's recent article on the increasing presence of 'Nazis' in Victoria. The fallacious assumption that every so called 'Nazi' is motivated by hate seems simplistic to me. Certainly, those who feel compelled to follow a flawed ideology such as National Socialism are more than a little confused. But to ascribe evil intent to each of these individuals to the point of stating that society should tolerate.

As for all these alleged Nazis in Victoria, they might just serve a useful purpose. John Stuart Mill once wrote that "The peculiar evil of silencing the expression of an opinion is, that it is robbing the human race ... If the opinion is right, they are deprived of the opportunity of exchanging error for truth; if wrong, they lose, what is almost as great a benefit, the clearer perception and livelier impression of truth, produced by its collision with error."

Advocating intolerance of some to achieve tolerance of others is intellectually dishonest and dangerous.

Jeremy Maddock, Victoria

Lisa Bournelis thanks Lisa! I'm glad to hear different points of view!! Actually. You point out some major flaws that I had also thought of in this plan. Like...just cuz your negative now doesn't mean you will be tomorrow. This is not sustainable. Anyhow, the relationship to genocide is simply the outward physical labeling due to things one cannot control. **With the jews, it started with relocation and isolation didn't it?** I'll have to brush up on my history. But it's such a divider to label others physically with a badge. Anyhow, it does not sit right with me. Hopefully this is the extent of it and everyone's worst fears are ludicrous 💜💜

 I am liking seeing some open dialogue and discussions. Thanks to everyone who has interacted so far.

Like some of you I also thought of the Jewish star 🌟. But not only that. I thought of prisoners too. I also thought of Oprah's old brown eye/blue eye experiment and many other more "benign" times when we've labeled our fellow humans.

Because I think its really important not to debate in extremes I do think its important to look broadly at the effects of labeling.

We know that labeling humans is powerful and often very harmful.

Keep the dialogue flowing.

Canada turning into Germany 1933; Willing to commit insurrection.

- “There is a risk of being a criminal [not turning guns in when asked] but I mean, what’s happening in this country right now is almost akin to statist oppression. **And I know where I fit if its 1933 and they’re trying to break people and they’re trying segregate them and divide them.** I know where I sit and I know where my decisions are in that case. And I think people need to look in the mirror and answer that question for themselves.

And they need to know they are not alone there are lots of people that feel exactly as I do. They need to stop being afraid and they need to think for themselves and they need to be willing to take any action that's necessary to stand up for themselves in the face of statist tyranny. Imagine a Christian teacher celebrating Easter by gathering students in a circle, looking each in the eye, and saying:

Arsons cause wildfires conspiracy, ignored by MSM

The main reason I'm bringing this issue to light is that the arsonists are not being held accountable to the public for damages they've done. Why? We blame it all on climate change when, in reality, it's not just natural causes. Most of the fires are being deliberately started.

Further to that & in my opinion, based on reports, fires are deliberately started in O&G rich regions like Northern AB, Sasks & Northeast BC. This is a deliberate act to try to convince the public that the fossil fuel industry is responsible for this when, in fact, that is false.

Participation in Far-Right Rallies

Kindy has appeared at multiple far-right rallies by the group “Stand United,” appearing in front of posters that claimed, “the media is the virus.”

June 22, 2022 - Stand United Rally at BC College of Physicians and Surgeons

Dr. Stephen Malthouse was also a speaker at the June 22nd rally.

March 18, 2023 – Stand United Rally in Vancouver & Genocide Claims

Kindy was preceded by far-right activist Harm Bomm. At the rally, Kindy declared Ukrainians living under Stalin’s communist dictatorship had more healthcare choices than British Columbia does now.

“This is what Bill 36 does... I don’t want my children to live in a county. And to be honest, I have a father who was from the Ukraine. Stalin Ukraine. And I think in Stalin Ukraine you had more choice in terms of healthcare.” (Harm Bomm, Dr Anna Kindy, Victory Canada: Media is the Virus Vancouver March 18, 2023,” Odysee, 3/20/23, 17:30-17:44)

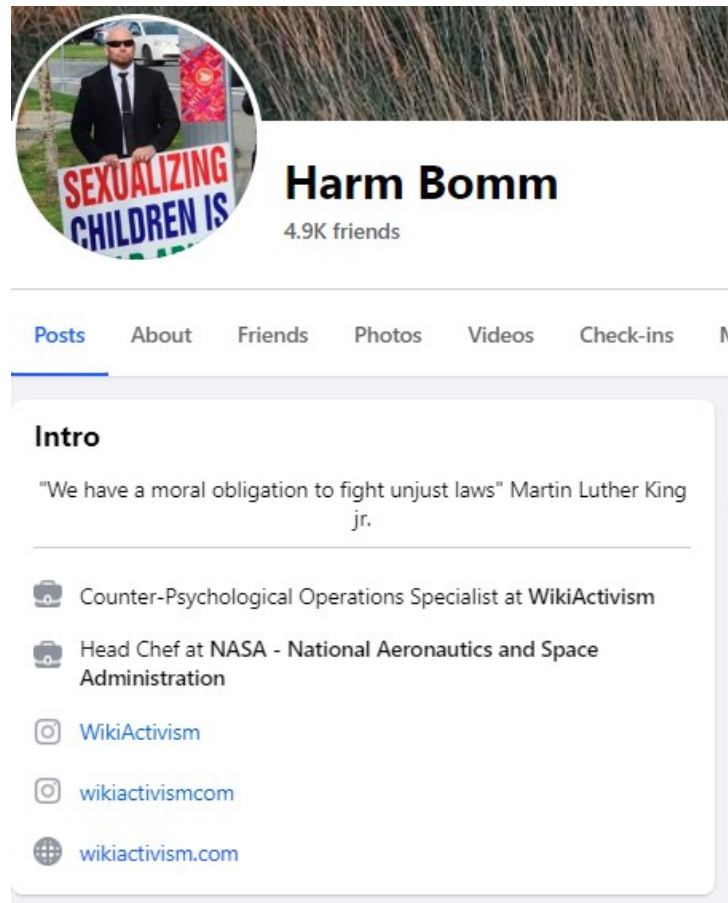

Between 3.5 million and 7 million Ukrainians Died During Stalin’s Genocide. “In 1932 and 1933, millions of Ukrainians were killed in the Holodomor, a man-made famine engineered by the Soviet government of Joseph Stalin. The primary victims of the Holodomor (literally "death inflicted by starvation") were rural farmers and villagers, who made up roughly 80 percent of Ukraine's population in the 1930s. While it is impossible to determine the precise number of victims of the Ukrainian genocide, most estimates by scholars range from roughly 3.5 million to 7 million (with some estimates going higher). The most detailed demographic studies estimate the death toll at 3.9 million. Historians agree that, as with other genocides, the precise number will never be known.” (“Holodomor,” [University of Minnesota](#))

Association with Harm Bomm

Kindy associated with Harm Bomm at the March 2023 *Stand United* rally as a co-speaker.

[Harm Bomm](#) is a far-right, anti-LGBTQ+ activist who claims to be a “Counter-Psychological Operations Specialist at the website [WikiActivism](#).”

Harm Bomm has told counter-protesters that they will be put to death.

- “You’re pretty proud of that too, eh [supporting pedophilia]? ...have you heard of the Nuremburg Code? You realize that you will be put to death.” ([Twitter, Jan. 23, 2023](#))

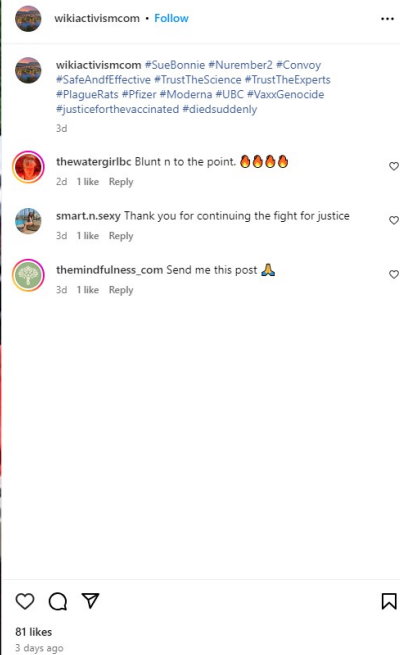

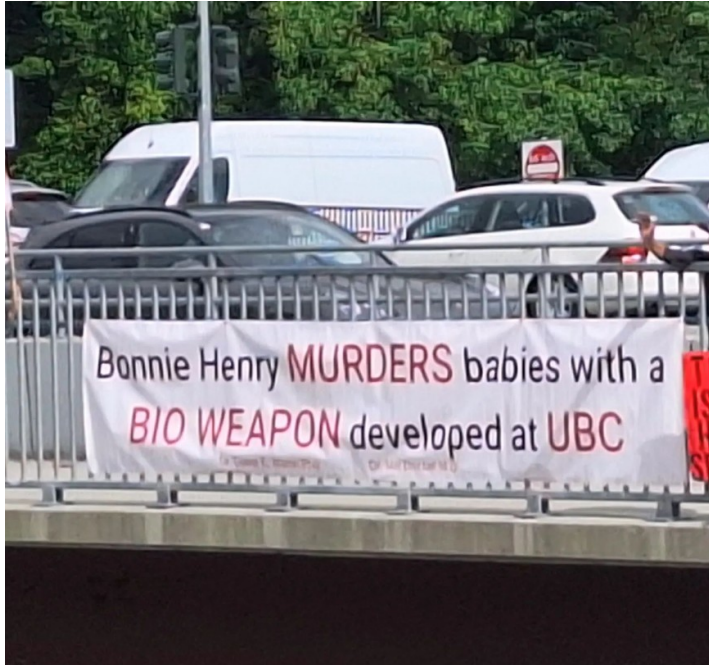

Bomm’s webpage also warns of UN Agenda 21 and a conspiratorial global government:

- “Once touted as a conspiracy theory, UN Agenda 21 & 2030 have now become a conspiracy fact. The-powers-to-be aren’t hiding it anymore.”
- “This Agenda is called The Great Reset by the World Economic Forum, a basic rebranding of the Agenda set forth by the United Nations.”
- This New World Order is being constructed right from the bottom at the local level, and all the way up to entire continents. The goal is to have a One World Government and a One World Army.” ([WikiActivism.com](#))

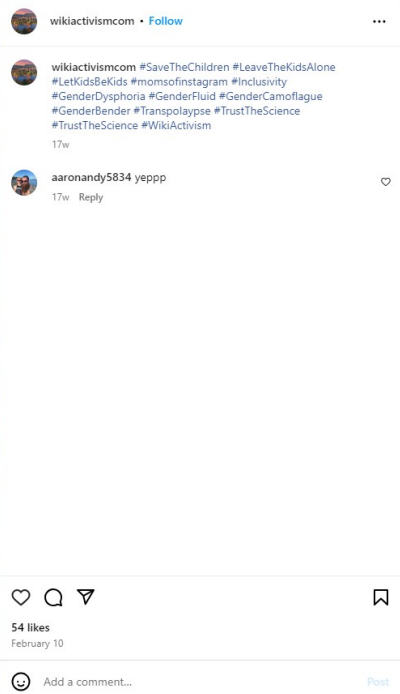

•

On his Instagram page, Bomm claimed that Dr. Bonnie Henry is murdering babies with a bioweapon, and warned of a “Vaxx Genocide.”

WikiActivism.com organizes regular overpass rallies touting COVID conspiracies and anti-LGBTQ+ rhetoric.

Bomm has expressed anti-LGBTQ+ views and associates them with globalist conspiracy:

Bomm has promoted John Rustad's opposition to UNDRIP and claimed it is part of a plan for "handing over 97% of BC's land to the UN under the UNDRIP scheme."

Association with Dr. Stephen Malthouse

In addition to the *Stand United* rallies, Dr. Kindy has spoken alongside Dr. Stephen Malthouse at multiple events. Malthouse infamously claimed that COVID-19 vaccines caused human magnetism. Both Dr. Kindy and Dr. Malthouse have received disciplinary letters from the College of Physicians and Surgeons for misinformation.

On the panel, Kindy agreed with panelists that terms like “white supremacy” and “misogyny” should be looked at with “suspicion,” and argues that “Misinformation and disinformation are not medical terms,” but are “political terms.”

Stephen Malthouse, (second from left) and Anna Kindy (far right)

March 28, 2024 - BC TownHalls 2024, Campbell River

Kindy spoke on a panel including John Rustad, Stephen Malthouse, Gail Davidson, Christoph Kind. Aaron Gunn was also in attendance as an audience member.

While there, Kindy advocated anti-globalist conspiracy theories:

- “Bill 36 creates a backdoor for bringing in, you know, policy or legislation from other jurisdictions that was mentioned. But what that essentially means is, it's done without any democratic oversight.”

Stephen Malthouse advocated conspiracy theories:

- *On the UN Sendai Framework:* “Maybe you've seen these three words ‘build back better.’ But you know, to build back better, you have to destroy it first. And we seem to be on the path of destruction.”
- *Climate Denial:* “I'm not sure how many of you are on the climate change thing, but climate change can be a very much a subjective view. In other words, if it rains too much this week, some people may think that's climate change.”

John Rustad endorsed Stephen Malthouse’s views:

- “It's pretty scary. You know, I think Dr. Malthouse had it right. You know, this is pretty scary stuff when you start looking at it all. And the question is, will people wake up to what we're doing? What see what's happening around them?”

Gail Davidson, writer for the Epoch Times, advocated conspiracy theories

- “Now, this would enable, for example, adoption of rules made by the World Health Organization, the World Economic Forum, the World Health Assembly, and the creation of what NBC of what US law professor Francis Boyle describes as “a totalitarian medical and scientific police state that would be beyond the control of national state and local government authorities.””

Kindy shared a [platform](#) with BCC Leader John Rustad, Stephen Malthouse, PPC Candidate and conspiracy theorist [Ron Vaillant](#), and [Jeremy Maddock](#), a disbarred lawyer and failed Victoria council candidate who defended Nazism and said that society should tolerate Nazis because “they might just serve a useful purpose.”

IN ATTENDANCE 2023 CONFERENCE

HON. BRIAN PECKFORD

Mr. Peckford is the former Premier of Newfoundland and Labrador and the last surviving signatory of the Canadian Charter of Rights and Freedoms. He launched a lawsuit with other Canadians that alleges that the Federal Government of Canada has violated our rights under the Charter.

HON. JOHN RUSTAD

Mr. Rustad was re-elected MLA of Nechako Lakes in 2020 and is currently the Leader of the British Columbia Conservative Party. First elected in 2005, he previously served as Minister of Aboriginal Relations and Reconciliation.

LEIGHTON GREY

Mr. Leighton is a constitutional litigator and a senior partner with the firm Grey Wovk Spencer LLP. He has conducted hundreds of trials before Alberta Courts and is considered one of Alberta's top criminal trial lawyers. He is also the host of the Grey Matter podcast.

DR. KINDY

Dr. Kindy is a physician who practises in Campbell River. She joined the freedom movement as an advocate for “informed consent” to allow individuals to make their own choices in their medical care after being educated on the risks and benefits.

PHILIP DAVIDSON

Mr. Davidson is one of the founding members of the BCPS Employees for Freedom, a diverse group of public servants who stand together for medical privacy and bodily autonomy. He has been actively defending against medical coercion and discrimination in B.C.

RON VAILLANT

Mr. Vaillant is a life long Albertan who was a Candidate for the 2021 Federal Election with the People's Party of Canada. He is also the host of a YouTube channel under his name, exposing the loss of our land rights through UNDRIP.

DR. MALTHOUSE

Dr. Malthouse is a physician who went viral when he urged his colleagues to “stand up and speak out” against COVID restrictions. He has been suspended from practising medicine over allegations of spreading misinformation.

DR. PELECH

Dr. Pelech has been a professor of immunology at the University of British Columbia for 33 years, and is one of the founding members of the Canadian Covid Care Alliance and the Chair of the Scientific and Medical Advisory Committee.

John Rustad and Anna Kindy are featured in a 2023 video endorsing the WeUnify Conference:

Video Link: https://www.youtube.com/watch?v=SEcUL_taY_U

- **Rustad:** “This has been actually a very good conference, it’s been very informative. There’s been a lot of great information a lot of very, very good speakers.”
- **Rustad:** “Reclaiming or renewing this country has the potential to show the world that we are the solution that everybody thinks we are.”

You are invited to attend the third annual Reclaiming Conference to be hosted in Victoria, BC from June 21-23, 2024. We have assembled a coalition of leaders from government, digital platforms, media, academia and civil society to address the imminent threat of Disinformation and Censorship. Join citizens from across North America to help us form an international strategy in order to advance freedom and to safeguard our democracies in these rapidly changing times. We are advocating for a new Congress of Citizens to reimagine nations and to bring forward actionable solutions. Learn more at our official website: <https://www.weunify.ca>

Accusations of Over-Prescribing Methadone

Dr. Anna Kindy oversaw a patient who died from “a lethal combination of hard drugs culminating in respiratory failure mainly due to an overdose of methadone.”

Kindy prescribed 60 mg of methadone per day for patient Adam Wayne Beadle, which is considered to be “the high end of dosages.”

According to local news:

- “Adam Wayne Beadle walked most of the way from Duncan to Campbell River to enter a rehabilitation program. ‘He walked a great distance and he hitch-hiked when he could,’ said Wendy Conover. ‘He was determined to seek treatment.’ On day three of a coroner’s inquest into the death of Beadle, the jury heard from Conover, a registered nurse who coordinates the Campbell River Hospital’s drug and alcohol treatment programs, and Dr. Anna Kindy, sometimes referred to during this inquest as the ‘methadone doctor.’ Beadle was 27 years old when he died near midnight March 2, in a Campbell River RCMP jail cell. Before being taken into custody, he had taken a lethal combination of hard drugs culminating in respiratory failure mainly due to an overdose of methadone.” (“CN BC: Adam Beadle’s Last Days,” [Duncan News Leader](#), 11/30/01)
- “Taking into account his physical size and tolerance for drugs, Dr. Kindy prescribed 60 mg. of methadone a day for Beadle which is considered the high end of dosages.” (“CN BC: Adam Beadle’s Last Days,” [Duncan News Leader](#), 11/30/01)

Between 2016 and 2019, at least two alleged patients accused Kindy of overprescribing methadone.

In September 2016, An Alleged Patient Of Kindy Accused Her Of “Push[ing] Methadone” And Being “Rude, Disrespectful, And Arrogant.” (“Dr. Anna Kindy,” [RateMDs](#), Accessed 5/16/24)

Worst dr I have ever been to and staff is just as bad. Kindy is rude, disrespectful and arrogant among other things. Was referred to her for chronic pain and treated like a criminal. She pushes methadone as the greatest thing ever, trust me, it's not.

Worst dr i have ever been to. It seemed her only purpose was to give me massive doses of methadone while taking away the pain meds I was on (and those were working great for pain relief) Methadone does absolutely nothing for pain control and was extremely difficult to come off of, thanks for nothing Kindy. Thank gawd I found an awesome GP and back on my regular meds.

Such a great story!
Love this oil. Some one sick in the family, diffuse it.
Feel something coming on? Dilute it and put it on your feet or low spine. We like to put a drop in the mouth or on a canker sore. Really numbs it out fast!

After a 10-minute trial... The judge was so intrigued by how these men had spread rumors to his brother-in-law, that he told them if they showed their secret he would spare them of this punishment.

The Thieves said the judge then asked, they were perjured & spoke obscenities who were excommunicated due to the closure of the sea ports and the destruction of the village. They had prepared an essential oil recipe that when applied to their hands, ears, temples, head & a rub over their mouths, kept them safe from infection. The judge ordered them to be hanged. The men were not hanged alive, but instead they were hanged by their wrists.

From then on, the doctors who treated the Black Death victims put the herbal infusion on their hands, ears, temples & head, and wore beads like masks stuffed with cloths containing the essential blend. The blend is how doctors got the long-lasting nickname 'thieves'.

Did you know where the term 'quack' originated?

My job is so amazing! I have the honour of supporting mamas as they welcome their new babies into this world. This week I supported a good friend labour for another family! She was their surrogate!! 🥰

And just today I supported one of my favorite families for the second time!! 💙

I love being in this space!

In between births, I cook, clean and love on my own 4, my husband and our student! Sometimes love includes a drop of lavender on a wound, a tummy rub with digize, or some R.C and peppermint for a stuffy nose. I teach and inspire others with these oils. And today is the last chance to get the best ever sales price on a kit that I've ever seen.

I love how these oils give to my family, the births I support, our health and our goals.

I love my life!! #ridingthehigh #comewithme

Essential Oils as wildfire relief for lungs

unfortunate event.

We recognize that during these trying times, adaptability is crucial. If any of our valued members have Loyalty Rewards Orders and require support, we extend an empathetic hand. They are invited to connect with our dedicated team, Young Living Disaster Relief Campaign by calling 1-801-609-6475. We are committed to assisting those who wish to skip their Loyalty Rewards for the month. However, it's important to note that even if a skip is arranged, meeting the regular benchmarks to earn commission remains a requisite.

Young Living as a whole is here to support those affected by these unfortunate events and will provide all support possible to those in need. We are working to make further statements in the coming future to spread word about our collective efforts.

Thank you for being a part of the Young Living Family and please take care.

Aloha Kristina,

This is Nonono! It was so nice to talk to you and wonderful to hear that you and your family are safe. It's wonderful that you can share this information with your Young Living team, that were affected by the fire. Have your team check their Emails, and Voicemails too, we may have already reached out to them. My team and I are committed to providing assistance and relief to those affected by this unfortunate event.

In times of adversity, we stand together to support our members and communities who are facing challenges. The recent fires have had a profound impact on the lives of many friends, families, and fellow members. We are committed to providing assistance and relief to those affected by this

Touts debunked anti-fluoride movie 'Root Cause'

kristinaloewenrealestate • Follow

I recently watched root cause, a documentary which discusses the role that root canals, wisdom tooth removal, dental health in general can play in our overall health. It talks about each tooth's connection to a meridian in the body. Each one connects to heart, lung, kidney, etc. Scientifically measurable with EKG.

Before you go thinking I'm crazy, when is the last time you had flouride or a mercury filing? This was main stream until my parents questioned it. 20 years, maybe 30, later and no dentist will give you a mercury filing in Canada.

Then follows floride. Say no and you used to get a brief sermon on the benefits. Now you can simply opt out. Again, my parents were asking questions regarding flouride in tap water and in dentistry back in the 80s. They were called names.

What are we questioning today that will be main stream in 20 years?

kristinaloewenrealestate @mlhmissy I checked out her page. This video shows a very soft side to feminism, body empowerment and awareness, along with a respect for natural rhythms and the way our bodies are designed to work. I used to think feminist meant man hating and tough. I didn't describe myself that way. I now undersrand true feminism just means embracing and accepting that which makes us feminine. All of it. And we can still love men and our bodies 🍷💕🍷

 - “Without even examining my eye, she called me “a big baby” and told me everything was fine and sent me home. After that, it took several months before I could see clearly.”
 - “She was treating my mother for anxiety and panic attacks after what looked like a panic attack and the symptoms just kept getting worse but the prognosis never changed, a year later she went to the u of a and had brain surgery for a malignant brain tumour that was the size of a baseball. The doctors there said it had probably been growing for a year and the first sign was most likely the seizure that she had called a panic attack.”
 - “Her diagnosis - I ate too much... I was upset but did try to diet for several months with no change. I was larger in the abdominal area only. Turns out I had multiple fibroids in my uterus. I ended up hemorrhaging, almost losing my life and requiring 3 blood transfusions.”

Budget announced today:

\$61 Billion in the next three years assuming EVERYTHING remain on budget LMAO 😂 \$11,000 per BC resident 🤢 This is why I put on my flax jacket and became a candidate. WOW!!! 😡 But hey...I can also get 1 cycle of FREE in vitro fertilization, diabetics however can't get insulin, needles or test strips, yet drug addicts get Hydromorphone, needles, food, clothing, housing etc. 😡

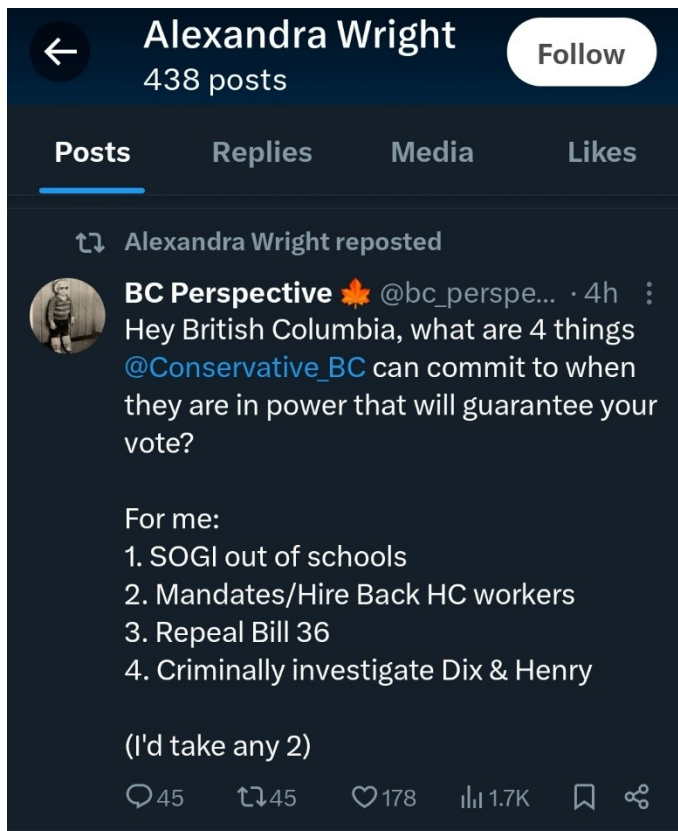

In 2017 they predicted by 2022 there would be more than 2.1 million additional cases of diabetes in BC, corresponding to \$15.36 billion in related healthcare costs.

It hasn't been on the radar since because we're to worried about Covid, disease X, whatever new scandemic they dream up. 🤢🤢🤢

Flew to Mexico for private medical treatment

wright4bc · Follow

wright4bc Healthcare is very near and dear to me. In 2018, I was diagnosed with a serious illness and, when faced with very limited treatment options in Canada, as well as delayed services, I was lucky enough to be able to fly to Mexico for treatment instead. BC residents shouldn't have to leave home to obtain adequate medical care. A vote for the Conservative party is a vote for patient-centered care with reduced wait times and more innovation.

- ...I want to thank the peacemakers of the world. But at all levels of government, I would say to those: come join the peacemakers. Let us all become peacemakers. This conflict.... Having talked with some of these refugees that I’ve had, it is tearing apart families, destroying essential infrastructure and leading to all kinds of shortages, especially in the necessities of life, for food, shelter, clothing and energy — things we take for granted here in British Columbia and in Canada. Pro-SOGI, says people exploiting the LGBTQ community are unfit for office

Michelle Mollineau
October 12, 2018 · 🌐

...

It has come to my attention that there is a smear campaign regarding my reputation as being anti-SOGI, anti Gay, anti-LGBTQ. So, let me be clear! I have never or ever will be anti LGBTQ and I fully support SOGI. I have a deep concern for children, youth and adults who are bullied every day due to their sexual orientation, insecurities, mental or physical abilities, and class status.

I have been by the side of friends who were dying from an unknown "Blood" illness that was later labeled Aids.

I have hugged and supported men who were too ashamed to tell their parents that they had aids and were dying.

I have partied (in my younger days) at gay bars and had some of the most amazing girl talks in the mixed bathrooms!

I have comforted a friend who was so severely beaten by homophobic assholes that they were in a coma for weeks and suffered liver and kidney damage, who later died of Aids.

I have helped a friend who had to deal with their emotions and fear rejection from friends and family while going through a transition.

I have celebrated couples who were finally able to adopt a child because being gay was an issue. And finally, I was able to have my adopted son connect with his five beautiful adopted cousins who have the most amazing, loving coolest dads.

I will also tell you that I don't tolerate or associate with anyone who is anti-gay, anti-LGBTQ or anti-SOGI. I am saying this because I know that fellow election teammates and Fred Harding are not any of these anti-labels as they have never shown or spoken any despairing words or done any actions to show this.

Shame on some of these opposing running candidates in exploiting the LGBTQ community, SOGI and parents to discredit me and others for political game. That is truly disgusting, and you have no right nor are you fit to run for office. Are you going to treat fellow Vancouverites with this kind of politicking and manipulation to get your way if you get into office?

I hope that people of Vancouver are smart enough to take the time to talk to me and others to learn who we are and what we stand for and know that I am and always have been true to my beliefs and words.

We ALL should be treated with dignity, respect, fairness, and care for one another....Period!
